

The background is a vibrant, abstract geometric pattern composed of various colored triangles and polygons in shades of red, orange, yellow, green, blue, and grey, creating a quilt-like effect.

- 2.To increase the knowledge of traditional and contemporary techniques of quilting and to provide an encouraging environment in which quilters can practice and exchange ideas.
- 3.To educate the public as to the significance, history and preservation of quilting as an art form as well as an ongoing craft.

Whimsical
Enchantment

The whimsical enchantment of the forest is captured in this diorama. The scene is a magical world of hand-painted rocks, colorful figures, and a flowing stream. The tree trunk frame is a naturalistic touch, and the paper flowers add a touch of whimsy. The entire scene is set on a green felt ground, creating a lush, vibrant forest floor.

A day patched with
quilting seldom
unravels!
